

**「Global Health & Medicine」 2020 April; Vol.2 (No.2);
Special Topic: COVID-19**

Global Health & Medicine (Print ISSN 2434-9186, Online ISSN 2434-9194) is an international, open-access, peer-reviewed journal, published by the National Center for Global Health and Medicine (NCGM). Since the coronavirus disease 2019 (COVID-19) outbreak, the *journal* rapidly published an issue of “GHM Special Topic: COVID-19”.

The issue of “GHM Special Topic: COVID-19” collected a range of articles describing COVID-19 based on frontline data from Japan, China, the United States, Italy, the United Kingdom, and other countries and areas worldwide. The *journal* has worked with authors to publish the series of articles in a determined effort to rapidly disseminate reliable information to promote a science-based response strategy to combat this global pandemic.

Since its inception in October 2019, *Global Health & Medicine* has been dedicated to publishing high-quality original research that contributes to the advancement of global health and medicine, with the goal of creating a global information network for global health, basic sciences as well as clinical sciences, hoping that they lead to novel clinical applications.
